FJC ISRAEL HANUKKAH MISSION

We are in the midst of a horrific, tragic, and complex situation in Israel that is likely to transform the reality in our region for the rest of our lifetimes and beyond. This moment reverberates throughout the lives of all who live here, along with the global Jewish community, and deeply affects people across the world.

As we mourn the unfathomable losses, pray for the captives, and fight for Israel's security and strength, this mission of consolation and solidarity is an opportunity for leaders from abroad to come to Israel to better understand the reality on the ground, the nature of the human tragedy, and prepare together for a better future.

THE 4-DAY PROGRAM INCLUDES 3 MAIN COMPONENTS:

- 1. Understanding the reality on the ground, from military, humanitarian, and political perspectives.**
- 2. Joining with local communities and leaders to appreciate their suffering, solidarity, heroism, and needs.**
- 3. Reflecting, processing, and preparing participants to return home and to help connect with Israel in this moment.**

We invite particular individuals who desire to assume a level of advocacy, allyship, and leadership to take part in this mission as this time of crisis continues to unfold, regardless of their past communal or Israel experience.

Please keep in mind that the situation in Israel is changing constantly. We will prioritize your safety during the mission and adapt the itinerary as needed in accordance with Home Front Command instructions.
